

High Water

Texas/Red Dirt Radio's favorite Australian is kicking off his 3-month Texas tour by dropping a new single. 8 Ball's third release might sound a little different to you with its swampy Texas Blues overtones and background vocals of local songwriter Guthrie Kennard, who also cowrote "High Water".

'Swamp Blues', the new album from 8 Ball, was recorded in the Texas Hill Country town of Wimberly, TX and has been earning high praise from his native home of Australia to his permanent home of Texas.

"8 Ball Aitken blends old world sounds and values with a fresh perspective that has been brought up by a true troubadour from down under." – Uncle Charley KHLB
