“Blood Red Moon” comes from an album that is full of honest real-life tunes. In fact, the soon to be released album is appropriately titled ‘Life’. Written by Drake and his buddy Matt Morgan, “Blood Red Moon” is about going all out and having a little fun every once in a while, and not sweating the small stuff.

The Drake Hayes Band is looking to build on their recent success. Since the bands formation in 2014, they have been on a steady climb up which includes charting higher and higher each single and seeing the territory they cover while touring grow. ‘Life’ is the next step and “Blood Red Moon” is kicking off the party.
