

JON YOUNG

presents

RUBBLE AND RELICS

Jon Young delivers a song writing style that is described as touching, full of truth, real depth, and vivid imagery. These are all characteristics you'll find in his debut radio single, "Rubble and Relics".

The Stephenville, TX native wrote "Rubble and Relics" the week that Hastings closed its doors and he was thinking about the entire situation. Hastings once came to town and forced out the small record shops, but time has a way of sorting things out and now the giant that was Hastings had fallen. Jon says it's a story that is all too familiar. Out with the old and in with new make way for the chosen, save a relic or two.

"Rubble and Relics" is Jon Young's debut single that comes from his sophomore album Relic. The concept for Relic came to Jon 6 months before heading into the studio. He wanted to create an album with songs reminiscent of a different era that would tell the stories of an ever-changing world and its struggle to hold on to its history.
