BIO

"Mark Powell is the man carrying the torch for 'Texas Music' with his songwriting and performance excellence." - Gary P. Nunn

With the recent release of his 5th studio album, "Breaking Things", Mark Powell is quickly leaving a footprint bigger than Texas, encapsulating a modern spice to traditional country music. The unique blend of authentic lyrics, vocal hints of Geroge Strait, versatility as an accomplished musician, and unsurpassed showmanship as an entertainer, Mark Powell is gaining international success as an independent singer and songwriter. As a 2nd generation professional musician, his father, Bishop, taught him the value of hard work in the music business. This hard work has lead to performing on some of the world's largest stages and most elite songwriting rooms. Mark has written with the likes of hit songwriters: Dean Dillon, Bubba Strait, Jeff Hyde, Walt Aldridge, and many more. 16 other music artists have cut Mark's songs, with 4 landing on the charts. This year is the year for "Breaking Things"; into even more markets and hearts of true Country Music fans!
